George Badeen

Welcome

Thank you, we appreciate your interest in Allied Finance Adjusters Conference Inc. I would like to tell you a little bit about our members and our Repossession Association. My name is George Badeen and I am President of Allied Finance Adjusters Conference Inc. We are a national trade association of automobile repossession agencies, which is dedicated to the advancement and continuing education of our craft. Our repossession association was founded in 1936 and is considered the oldest trade Association of its kind in the nation. All our members are independent businessmen and women.

This directory contains the most current listing of qualified Allied agents. Our members are required to attend RSIG training and certification classes in their individual states, in that licensing laws and requirements are state specific. Our members also go through a rigorous approval process to gain membership in our repossession association. Our members are located throughout the United States. If you do not find an agent in an area of the country to service your needs, call our home office for referral. All our agents are properly licensed fully insured and are covered by the Allied Client Protection Bond of \$ 1,000,000.00. Each member of Allied is bound by a strict code of Ethics.

Our executive committee requests your cooperation in reporting any improper performances by any member of this association to our executive Secretary at our home office at 1-800-843-1232. We assure you that as a valued customer our Grievance-Guidance Committees will adjudicate the situation to everyone's satisfaction.

Sincerely,

George Badeen

Al Michel

Zephyrhills, FL
Midwest Recovery & Adjustment, Detroit, MI

Discharged from the service in 1946, Al went to work for the Bank of Ohio as a Collections Officer. While working at the bank, Al made friends with Paul Leleu, a member of Allied. Paul suggested that Al apply for membership and join Allied as a repossession agent as they needed a member in Cleveland. Al applied, was approved and left the bank to start his first repo business in 1952. He had an office in Cleveland and one in Youngstown, Ohio. In 1957 the membership for Allied in Detroit was available, Al applied, was accepted and then operated repossession offices in Detroit, Cleveland and Youngstown until 1960. Selling the Cleveland and Youngstown locations, Al moved his family to Detroit in 1961 where he operated Midwest Recovery & Adjustment Service until he retired in 1990. Midwest was one of the first repossession companies in the United States to offer 'Dealer Only' asset liquidation sales to the banking industry. In 1990 George Badeen along with partner George Kernan bought Midwest. George remains the owner today, as well as an 8 time annual President of Allied Finance Adjusters.

Bob Quintana

Santa Ana, CA
LA Private Detectives, Santa Ana, CA

Mr. Quintana at the present time is married to Cecilia Acosta Quintana for 28 years and is spending most of his retirement time in the state of Florida. His education comes from California State University and various Junior Colleges in the State of California. In 1980 he resigned from the Compton Police Department and enjoyed one year of leisure before he decided to work in the investigation field. In 1982 he received his Private Investigation License from the State of California and soon after he attained his Repossession and Security Patrol License. He began his business as a Private Investigator with L A Private Detectives and Attorney Service. The business lasted until his official retirement at the age of 66. At the end of his career he decided to do what he likes best which is to travel the globe with his wife Cecilia Quintana before his time to retire to a wheel chair. Mr. Quintana stated that he misses his friends in the investigation and repossession industry and from time to time he would like to visit future conventions.

Hank Leleu

North Las Vegas
ARB Recovery, Las Vegas, NV

Having been born into the business, it is difficult to remember a time that I was not in some way involved in the repossession industry. My father Paul Leleu was one of the founders of Allied going back to 1936. He started his recovery business in 1930 in Chicago, Illinois. As children I remember my dad gathering my brother Paul Jr. and myself up, putting us in the back seat of the car while he and our mom would drive about the city locating and recovering collateral for the new industry they served, then called chattel lending now known as consumer lending. As time marched on and I grew my dad would take me to work with him where I learned how to sweep floors and clean bathrooms. I advanced to light filing and other duties such as cleaning up the storage lot and picking up the dog droppings therein. Later I was allowed the honor of inventorying the personal effects in the recovered vehicles and placing them in boxes for storage and ultimate release back to the owners. Then it was the making of condition reports and other functions of the business. When I received my learning permit to drive I was allowed to ride on the street with the real outside agents where I learned to hot wire ignitions, pick locks, make door calls and skip trace. When I was 16 years old I recovered my first car which is still imbedded in my memory. It was a 1961 Ford Starliner which was located at North Avenue and North Austin in Chicago. In 1965 I entered the US Army and after a 3 year tour of duty I returned home in 1968 and went back to work with my dad. I became interested in Allied in the early 70's and took my first office in 1975 as the Central Division Director. Through the years I can say that I have held every office in Allied Finance Adjusters as well as chaired every committee that was available. I took over the Chicago office for Allied when my dad passed away in 1979. So, as is evident, I guess that it can be said that I was born to an industry that I came to love and respect, literally working my way up from janitor to president and beyond. I would like to say that I hope that God blesses and keeps each of you in this industry safe and healthy forever.

Recovery Agents Benefit Fund (RABF)

This non-profit charitable organization is bigger in purpose and more important than any one person or organization. Since 2002, representatives of the organization have been assisting repossession families in their time of need. Many families have been assisted with hundreds of thousands of dollars, being distributed from the fund. 26% of these cases are where the fund was called upon because violent actions were taken against the repossessioner while attempting to complete a repossession, some of these cases resulted in the repossessioner's death. These are alarming statistics. Just as alarming, but perhaps not providing as much shock value, is the fact that another 37% of the fund's disbursements have been made because of deaths relating to the general health of the repossessioner. Due to the nature of the job, many repossessioners fail to properly take care of themselves.

Since the fund has been in existence, several of the cases where the repossessioner passed away, the fund had to provide money directly to the funeral home because there was no burial or life insurance to respond and help with these expenses. In 2011, the RABF Board established an advisory committee comprised of volunteers from the industry, representing all of the major trade groups, so the purpose and message of the fund could be shared across the industry hoping to eliminate the political ties that bind us all. The RABF now actively fundraises at many of these groups' annual conferences and continues to work with the trades to bring industry wide acceptance of the fund. But we all still have more to do. Imagine if every employee of a repossession company, field or office staff, were to give \$10, \$5 or even \$1 per pay check to the fund. The potential here is enormous. We sincerely appreciate every donation that is received – regardless of the amount.

None of the individuals or families assisted by the fund woke up thinking that particular day may be their last, or be the last day they were able to work in their chosen profession. The point is they did not know "it" was going to happen to them... and neither do you. You never know when you may be next to receive the call in the middle of the night that your husband, wife, child or employee was injured or killed; none of us know when our number will be up. What we do know is... that as long as the RABF can, we will respond in these moments of tragedy.

We also know that we cannot continue our mission without your support. The Recovery Agents Benefit Fund would like to take this opportunity to express our sincere thanks and appreciation to Dynamic Manufacturing and their CEO, Anthony Gentile for their continued support and generosity. Dynamic has remained a loyal supporter to the RABF by donating wheel lift units to the various industry associations who have sold raffle tickets for the unit and donated the proceeds. While individual donations to the fund dwindle in the current economy, Mr. Gentile and Dynamic have ensured that industry associations have been able to motivate their members and event attendees to purchase these raffle tickets. We also like to thank Mr. John Michel of Web Weaver USA for his donation of creating and maintaining the website for the RABF. His support of this industry and the fund have proven invaluable as we try to keep the RABF organization current and present in the industry.

RABF is a 100% volunteer organization. No one receives any compensation for their time or participation. Everyone involved with the fund donates their time because they believe in the fund's purpose and goals.

Their contributions to the organization are greatly appreciated. The RABF is a recognized 501c3 charitable organization and donations are tax deductible. You can make a donation by going to our website: www.recoveryagentsbenefitfund.org Thank you.

The History of Allied Finance Adjusters Conference

The Beginning: Allied Finance Adjusters Conference, Inc. was founded in 1936 by eight men with a profound vision of the future. A few years prior to our founding a new financial instrument was initiated by the financial community known as Chattel Mortgage Lending. That instrument and the new mobility of borrowers at that time sparked the idea of coordinating a network of collection people to strategically locate collateral nationwide and assist lending institutions in recovering property from defaulted agreements.

The majority of these pioneers were located in California and more specifically in the San Francisco Bay area. To gain traction, these men made huge sacrifices to relocate their families to places like Chicago, New York, Saint Louis, Los Angeles, Pittsburgh and Washington D.C., Having no jobs, no businesses and no place to call home, these individuals followed their vision and gut instinct. They knew they were going to change the face of the financial lending programs in America for many years to come.

During the early 1930's these pioneers set out across the country following their visions. After settling in new areas they went about the task of setting up their individual businesses. Getting the word out to the lenders in their areas was one of the problems that they faced. They wrote back and forth, sharing working and non-working ideas and information. The major difficulty facing them was convincing lenders that such a network existed and was in place. While each of these men was now in business, collectively they felt that since they started as a group they should remain a group. They had the first meeting in Saint Louis, Missouri in the summer of 1936.

At that meeting this association was formally born. The name chosen was "THE NATIONAL ASSOCIATION OF THE ALLIED FINANCE ADJUSTERS CONFERENCE." Following an election of officers, a blue print plan for the future was created. They pooled their money and invested in cooperative advertising. Thus the first finance adjusters' directory was printed and mailed to lenders across the country. It was printed on newspaper stock and mailed first class. Keeping in mind that this was the 1930's, all of this work was done by hand, the hands of our founders, all working together to reach one goal, serving the financial community.
